

RELAY CONTACT TERMINAL NUMBERS AND COLORS ARE FOR A COMMONLY AVAILABLE AUTOMOTIVE ACCESSORY RELAY, AVAILABLE.

A DOUBLE POLE/ SINGLE THROW ACTIVATION SWITCH WILL BE NEEDED FOR THE RAIN TRACKER TO OPERATE CORRECTLY. THE ACTIVATION SWITCH MAKES INTERMITTENT MODE AUTOMATIC.

**RAIN TRACKER
INTERFACE WIRING DIAGRAM**
WIPER SYSTEM CLASS:
GM - PMDP

Installing the Rain Tracker with the two external relays as shown will allow the wipers to operate in a full range of operation, including fast mode. To use the Rain Tracker, place the existing wiper control in intermittent mode, and turn on the activation switch.
